Overview

The Cat Clinic takes referral for a wide range of cases including

- General medicine
- Oncology – surgical, cryotherapy and chemotherapy
- Diagnostic imaging including ultrasound, radiology, dental radiology and endoscopy
- Radio-iodine therapy for hyperthyroidism
- Dentistry including dental radiography and root canal therapy
- Soft tissue surgery and reconstruction
- Orthopaedic surgery
- Microsurgery including vascular and ocular surgery

Our clinic is well equipped with a modern ultrasound machine, video endoscopy, laparoscopy, thoracoscopy and full range of feline surgical equipment.

Perhaps most importantly we have a hospital full of staff that love cats and understand their sometime unusual needs. This leaves the clients very happy that you chose The Cat Clinic to refer to.
